# Jubilant Bhartia Group— **Committed to improving lives in the United States**

Jubilant Bhartia Group's three-decade-long strong relationship with the US has been nurtured mutually through trust, transparency and collaboration. Over the years, the conducive business environment in the United States has helped Jubilant to grow and diversify exponentially. Today the Group's engagement with the US spreads across various sectors - pharmaceuticals, research, chemicals, healthcare, aviation and several others. This nurturing partnership promises to deepen further and will be pivotal in defining growth for the Jubilant Bhartia Group and the US.

Corporate office at Yardley,  
Pennsylvania

Manufacturing facility in  
Salisbury, Maryland

Manufacturing facility in  
Spokane, Washington

At the forefront of innovation through its pharmaceuticals business

Playing a vital role in improving lives in the US

Firmly believes in the potential of collaboration and considers United States its significant ally

Network of 46 Radiopharmacies serving over 1700 hospitals across the US

**\$285**  
mn

Committed to investing US \$285 Million to further expand its manufacturing footprint in collaboration with the US Government

Committed to strengthen presence in the United States with a vision to meet current and future medical needs

**2000**

Employees to support US operations across multiple locations

# A leader in innovation

Leader in cardiac imaging in the US through proprietary product RUBY-FILL

RUBY-FILL enhances how patients with known or suspected coronary artery disease are diagnosed and managed. Presence in the top 80% of cardiac networks in the US

Multiple products in clinical trials at various locations in the US, targeting unmet medical needs in oncology & autoimmune diseases

Clinical trials for I131-MIBG to treat Neuroblastoma, a paediatric tumour receiving over 800 (orphan drug) cases annually

Saving lives in the pandemic - strategic collaboration with five prominent pharmaceutical firms helped Jubilant in rapidly scaling-up production, ensuring a timely supply of COVID-19 drugs and vaccines in the United States

Contributes to US Government's strategy of strengthening supply chain resilience - One of the few Indian pharma companies manufacturing high-quality, affordable finished dosage formulations in the US

The sole provider of venom Immunotherapy in the US to treat life-threatening allergies. Invested in a state-of-the-art venom extraction facility and a team of experienced scientists

# 2500
